Author comment on "The role of ecosystem engineers in shaping the diversity and function of arid soil bacterial communities" by Capucine Baubin et al., SOIL Discuss.,  
<https://doi.org/10.5194/soil-2021-29-AC3>, 2021

---

Sorry about the mistake in the response to the reviewers about the depth sub-sampling.

As mentionned in the revised manuscript, the sequences were sub-sampled at 9100 reads (not 5000 reads as written in the response to comments).
