Emily A. Hill et al.

Author comment on "Quantifying the potential future contribution to global mean sea level from the Filchner–Ronne basin, Antarctica" by Emily A. Hill et al., The Cryosphere Discuss., <https://doi.org/10.5194/tc-2021-120-AC1>, 2021

We extend our thanks to the reviewers for their positive feedback on our manuscript and constructive comments that will greatly help to improve the manuscript. We have addressed the comments and provide our responses in the attached document, where referee comments are in black and our replies are in blue. We have also included a tracked-changes version of the manuscript at the end of the document.

Best wishes,

Emily Hill and co-authors
