## **Comment on tc-2021-174**

Anonymous Referee #2

---

Referee comment on "The influence of snow on sea ice as assessed from simulations of CESM2" by Marika M. Holland et al., The Cryosphere Discuss.,  
<https://doi.org/10.5194/tc-2021-174-RC2>, 2021

---

Hi John

Please see from my review document that I recommend relatively major revisions (more than simply "minor revisions"), but not major enough to warrant a resubmission. As such, it would suffice to have you check over how the authors have addressed these, and to then make the decision on publication.

I hope these suggestions and comments help.

Take care and all the best, Rob
