Community comment on "A strong link between variations in sea-ice extent and global atmospheric pressure?" by Jean-Louis Le Mouël et al., The Cryosphere Discuss., https://doi.org/10.5194/tc-2021-216-CC3, 2021

Thank you. These are all interesting possibilities and hope that you can make some progress. For your consideration, we have also pursued some of these ideas relating to a unification of orbits and geophysical measures by matching the known tidal forcing cycles.
