Community comment on "A probabilistic seabed–ice keel interaction model" by Frédéric Dupont et al., The Cryosphere Discuss., <https://doi.org/10.5194/tc-2021-273-CC2>, 2022

Another comment I have is that we are now using GEBCO 2020 which is very high resolution. The algorithm we use to generate bathymetric roughness is in the Adcroft paper cited here: https://github.com/nikizadehgfdl/ocean_model_topog_generator, plus the code is there too.
