Author comment on "Aerial observations of sea ice break-up by ship waves" by Elie Dumas-Lefebvre and Dany Dumont, The Cryosphere Discuss.,
<https://doi.org/10.5194/tc-2021-328-AC1>, 2022

Hi Timothy, thank you for submitting comments on our paper. I think there might have been an upload error because the pdf attached to your review is about the following paper : WIFF1.0: A hybrid machine-learning-based parameterization of Wave-Induced sea-ice Floe Fracture. Is it possible to upload the right file ?

Have a great day,

Elie
