Comment on tc-2021-352

Syedhamidreza Mojtavavi

Community comment on "Timing and Climatic-driven Mechanisms of Glacier Advances in Bhutanese Himalaya during the Little Ice Age" by Weilin Yang et al., The Cryosphere Discuss., <https://doi.org/10.5194/tc-2021-352-CC1>, 2022

Comment on "Modelling Glacier Evolution in Bhutanese Himalaya during the Little Ice Age" by Weilin Yang et al.

Three reviewers have already mentioned fruitful comments that can improve this manuscript a lot. However, I think the authors can provide a clear workflow diagram that shows the study overview. As a user and developer of OGGM, I would like to try your approach. So, if you provide a workflow it can be very useful and understandable for the OGGM community.
