Lander Van Tricht et al.

Author comment on "Estimating surface mass balance patterns from unoccupied aerial vehicle measurements in the ablation area of the Morteratsch–Pers glacier complex (Switzerland)" by Lander Van Tricht et al., The Cryosphere Discuss.,
<https://doi.org/10.5194/tc-2021-94-AC1>, 2021

In the attached document, we respond to the comments of reviewer 1, Evan Miles, one by one. Whenever some entirely new text has been added to the manuscript, it has been added in italics and in red. In the proposed revised manuscript, which is added at the bottom of the document, the textual changes have been added in red.

Please also note the supplement to this comment:
