Author comment on "Timescales of outlet-glacier flow with negligible basal friction: theory, observations and modeling" by Johannes Feldmann and Anders Levermann, The Cryosphere Discuss., <https://doi.org/10.5194/tc-2022-141-AC1>, 2022

We would like to thank Referee#1 for their willingness to review our manuscript and for the helpful comments and suggestions. We are glad for the referee's positive assessment of our study and are happy to hear that they would fully support the publication in TC after minor revisions. We will be glad to address the points raised by the referee in a revised version of the manuscript.

Sincerely,
Johannes Feldmann
