Shaoyong Wang et al.

Author comment on "Estimation of stream water components and residence time in a permafrost catchment in the central Tibetan Plateau using long-term water stable isotopic data" by Shaoyong Wang et al., The Cryosphere Discuss.,
<https://doi.org/10.5194/tc-2022-17-AC1>, 2022

We are very grateful for your valuable and instructive comments and suggestions. We have thoroughly revised the manuscript by addressing all the comments point by point in the attached document.

Please also note the supplement to this comment:
