Comment on wcd-2021-61

Camille Li (Editor)

Editor comment on "Improved teleconnection between Arctic sea ice and the North Atlantic Oscillation through stochastic process representation" by Kristian Strommen et al., Weather Clim. Dynam. Discuss., https://doi.org/10.5194/wcd-2021-61-EC1, 2022

Thanks to the referees for their in-depth reviews and the authors for their careful consideration of the points raised. Because of rather substantial edits and a reinterpretation of the results in response to the reviews, I'm offering the referees a chance to comment further on the revised manuscript.
