Author comment on "Experimental investigation of mini Gurney flaps in combination with vortex generators for improved wind turbine blade performance" by Jörg Alber et al., Wind Energ. Sci. Discuss., <https://doi.org/10.5194/wes-2021-124-AC1>, 2022

Dear Referee 1,

on behalf of all co-authors, I would like to thank you for taking the time to review our study. Your suggestions will definitely improve the quality of this paper.

Most of your suggestions will be implemented in the revised paper. In only a few cases, the comments are contradictory to those of Referee 2 and a synthesis of the suggestions will be tried.

Detailed one-to-one answers can be found in bold letters in the supplement.

Best regards,

Jörg Alber
