Revised submission on wes-2021-29

Pietro Bortolotti et al.

Author comment on "Land-based wind turbines with flexible rail-transportable blades – Part 1: Conceptual design and aeroservoelastic performance" by Pietro Bortolotti et al., Wind Energ. Sci. Discuss., <https://doi.org/10.5194/wes-2021-29-AC1>, 2021

The authors would like to thank the associate editor Prof. Sandrine Aubrun and the two reviewers Athanasios Barlas and Didier Lemosse for their time and valuable feedback. Their inputs contribute to the improvement of the paper. A list of point-by-point replies to the reviewers' comments is reported in the supplement pdf. The text from the reviewers is reported in italics and has been divided into a numbered list. Each point is followed by the authors' reply.

Please also note the supplement to this comment:
