Review response on wes-2021-48-RC1/RC2

Thanasis Barlas et al.

Author comment on "Wind tunnel testing of a swept tip shape and comparison with multi-fidelity aerodynamic simulations" by Thanasis Barlas et al., Wind Energ. Sci. Discuss., https://doi.org/10.5194/wes-2021-48-AC1, 2021

The authors would like to thank the two reviewers for their time and valuable feedback. Their inputs contribute to the improvement of the paper. A list of point-by-point replies to the reviewers' comments is reported in the supplement pdf. The text from the reviewers has been divided into a numbered list, where each point is followed by the authors' reply in red.

Please also note the supplement to this comment:
